

**Pawsability**

## Behaviour Therapy Referral

The purpose of the referral form is to ensure that your vet has diagnosed that your pet's behavioural problems do not appear to be caused by a medical problem, or that a behavioural modification program would benefit the pet either prior to or in conjunction with medical treatment. It also provides information on any ongoing medical treatment which should be taken into account when considering the behavioural modification plan.

To arrange a behavioural consultation with Anna Patfield of **Pawsability**, please **ask your vet** to complete the referral form below, then post it to the address below, and we will call you to arrange an appointment. Thankyou.
